

Of the seven laws of life enumerated

¹Under the heading, “laws of life”, the present work and Laurency’s previous works describe the seven fundamental laws of consciousness development, the laws of life (*The Philosopher’s Stone*, third section, chapters 3.1–3.73), but not the laws of the matter and motion aspects, the “laws of nature”. Under this heading are also brought together all commentaries on the laws of life with discussions of the pertaining problems of life, ideals, the art of living, etc.

²Of the seven laws of life enumerated, three (the law of development, the law of destiny, and the law of reaping) represent “guidance in man’s life”, energies that make the evolution of consciousness possible. The other four are those laws which man learns to apply himself in order to develop.
