

## *all laws can be brought together into three main groups*

7 Laws indicate that forces act, the ways in which forces act, and the conditions under which they act . As regards the three aspects of existence , all laws can be brought together into three main groups: the laws of matter, the laws of will, and the laws of consciousness. Only those required to comprehend the Life View outlined here are enumerated below.

8 ....law of dynamic primordial matter .... balance  
.... harmony... restoration, .... stability

9 The causal law, or the law of causality ....

10 The law of reaping ... sowing... consciousness

11 The law of development ... expediency, or finality... primordial atom is a potential god ...

12 The law of form .... of its indwelling life ...

13 The law of transformation says that the form of life constantly changes ....

14 The law of re-formation ....

15 The law of destiny indicates ....

16 The law of freedom... within the limits ...

17 The law of separation.... atomic consciousness ...

18 The law of unity ....consciousness expansion.

19 The law of self-realization .... realize its divinity.

20 The law of activation ... self-initiated activity ....
