

...self-initiated consciousness activity within the layers of consciousness...

⁴ Consciousness is conditioned by the vibrations in emotional (48:2-7) and mental (47:4-7) molecular kinds. Consciousness domains that are mainly superconscious are, at the stage of barbarism 48:2-4 and 47:4-6; at the stage of civilization, 48:2,3 and 47:4,5; at the stage of culture, 48:2 and 47:4,5. The emotional vibrations at the stage of culture are mostly found within the middle regions, 48:3-5. The two lowest ones have then disappeared for lack of the pertaining interests, being expressive of the grossest egoism. Superconscious domains depend on the fact that they are not vitalized in the emotional eon by interstellar or interplanetary vibrations, and that the individual is still incapable of vitalizing by himself the corresponding spirals of his triad units, and also that the individual has not acquired the ability of self-initiated consciousness activity within the layers of consciousness “accessible” to him.
